- Leading a team of technical resources; performing all human resources tasks, such as recruitment hiring, and managing employee performance
- Managing job growth and career development of staff members by preparing training plans, guidance, and sharing knowledge
- Strategizing for a wide variety of technical issues and new development activities specific to the customer mission

Highlights:

~ TinyChef.ai

- Translated basic design plans into full iOS app frameworks, delegating project components to appropriate team members
- Applied Apple's Swift development language to code native apps for the iOS platform
- Followed Apple's Human Interface guidelines to create products aligned with iOS UI norms
- Developed the tinychef application from scratch using MVVM and Coordinator design pattern
- Leveraged the latest standards like Combine framework for view model binding

~BQE

- Initiated as an individual contributor for the BQE Core iOS application
- Designed and implemented the initial architecture and developed the application from scratch
- Managed the BQE Core end-to-end mobile application
- Recognized with the Employee Of the Month for best performance in one of the features called mileage tracking
- Acknowledged with Employee Of The Month for best performance in one of the features called visit tracking

ANNEXURE

Projects Undertaken

Title: Tinychef- Cooking/Meal planner

Period: Jan'22 - Till Date

Role: Technology Lead

Technologies: Swift, Swift Combine, Alamofire, Firebase, UIKit, Core Animation, AVFoundation, AppClips, and so on

Integrations: CleverTap, Dialogflow for voice search using GRPC

Project URL: <https://apps.apple.com/in/app/tinychef-meal-planner/id1585312934>

Description:

The tinychef app will help you choose a tasty recipe, plan your meal, and teach you how to cook it.

Your meal prep has never been so well-planned. Every recipe is thought out to the smallest detail. It includes a complete grocery list, kitchen tools, chefs' advice, cooking times, culinary tricks, and, most importantly, recipe videos on how to cook.

Title: BQE Core

Period: Jun'15 - Jan'22

Role: Team Lead

Technologies: Swift, Core Data, Charts, Alamofire, Firebase, UIKit, Core Animation, MapKit, Core Location, and so on

Project URL: <https://apps.apple.com/us/app/core-by-bqe/id956924033>

Description:

BQE Core is an accounting, project management, time tracking, and invoicing software that lets you practically run your office from a single platform. Time and expense tracking, project management, dashboards, reports, billing, and accounting are seamlessly integrated into an easy-to-use interface that will save your time, effort, and money.

Title: BillQuick

Period: Apr'14 - Till date

Role: Team Member

Technologies: Objective C, UI Kit, Core Data, NSURL Connection

Description:

BillQuick is an integrated solution for Time and Expense Tracking, Billing, Project Management, and Accounting. It is designed to help firms increase performance, streamline processes and make decisions faster. With different editions to choose from, it's scalable to meet the needs of any firm size—from a single person to a global firm. Over the last 20 years, BillQuick has evolved from a simple time and billing solution to something much greater – a powerhouse that helps you track your billable hours, create and send effective invoices, perform accurate job costing, manage financially successful projects, and much more

Title: GENCom

Period: May'13 - Mar'14

Role: Team Member

Description:

GenCon is an iOS application that offers VOIP services. The key features of the application are,

- One-to-One Call
- Conference Call
- Video Call
- Conference Video Call
- Instant Messaging Service
- Voice Mail Service
- Screen share
- Call Transfer

Title: Country Music Radio

Period: Jan'13 - Mar'13

Role: Team Member

Description:

Listen for free to Country Music RADIO stations & Podcasts for music and news. Play Christian country, Classic Country, and hits from national patriot singers and bands.

If you are a fan of country music, Country Music Radio is a must-have app on your smartphone. With over 1,000,000 downloads, it is one of the most popular apps for country music. It provides easy access to 300 hand-picked stations that will play country music live on your smartphone.

Title: Wijn (wine app)

Period: Aug'12 - Dec'12

Role: Team Member

Description:

Users can record all the wines they tasted so that they can share them on Twitter, Facebook, or email. They can even shop for more wines using the same app.

Title: IMAGE PDF HD
Period: Apr'12 - Jul'12
Role: Team Member
Description: Image to PDF conversion application.

Title: ShowHow2
Period: Nov'11 - Mar'12
Role: Team Member
Description:
Showhow2 was the world's easiest self-support platform. Showhow2 provides the most advanced Self Learning Interface that helps common users find hi-tech products and services easily. In this application, we can watch step-by-step videos for learning about the desired product.

Title: Christmas Radio
Period: Aug'11 - Nov'11
Role: Team Member
Description:
Christmas radio features a streamlined interface designed for iPhone and iPad, the app allows users to enjoy a wide variety of Christmas hits from over 50 unique stations.
